

Apricus Dealer Requirements

Thank you for your interest in becoming an Apricus Dealer. We are looking for companies/individuals with a suitable set of skills, knowledge and experience to effectively market, sell, install and service Apricus solar collectors and related products.

As an Apricus Certified Dealer you will need to:

1. Purchase directly from an Apricus Distributor
2. Meet minimum purchasing requirements
3. Maintain comprehensive customer service records (Eg. customer complaints)
4. Ensure installation officers are Apricus certified (completed training)
5. Meet Apricus marketing requirements
6. Meet Apricus customer service requirements (Eg. Response time, customer satisfaction)

In order to be considered for a Dealership, you must:

1. Have in company industry experience (solar/plumbing/construction)
2. Have strong entrepreneurial skills
3. Carry appropriate insurance

Additional requirements will be discussed after receipt of application and fully outlined in any agreement that may be signed.

If you think you meet the above requirements please fill out an Apricus Dealer Application on the following pages and submit via email/fax. Please provide as much information as you are comfortable with – any information submitted will be kept confidential.

Email to dealer@apricus.com

Fax to: +1 2063384189

Thank you

Michael Humphreys
Apricus Solar Co., Ltd – General Manager

Note: Requirements outlined in this document are only guides. Specific requirements will be discussed and would be clearly outlined in any formal agreement that was signed.
